

## MAYOR'S CORNER

Being prepared for what ever comes our way is acutely important to second basemen more so than an earthquake that will happen tomorrow or in the next hundred years. We must keep in mind it is impossible to lock our seat belt as we are going through the windshield. As a City we ask all citizens to make plans for minor difficulties as well as major disasters. We ask all of you to participate in the events coming in April (listed below). Make or update plans as your response to a major disaster.

*Mayor Mark S. Thompson*

If you have any questions you can email the Mayor at [mayor@highlandcity.org](mailto:mayor@highlandcity.org). The Mayor is available at the City on Tuesdays from 8:00 a.m. to 12:00 p.m. If you would like to discuss an issue please call Jody at (801) 772-4505 to schedule an appointment.

### The Great Utah Shake Out - Earthquake Drill

On Thursday, **April 17<sup>th</sup> at 10:15 a.m.** Highland City along with the entire state of Utah will experience a 7.0 magnitude **earthquake drill**. Will you be ready for the next one? Practice at home or work and learn to be prepared. Practice **DROP, COVER, and HOLD ON** for at least **one minute**. If you find yourself inside during the drill find a sturdy piece of furniture to crouch under or interior wall to kneel down by and cover your head. If you are outside get away from buildings or power lines that may fall on you and get low to the ground to prevent yourself from falling too.

The City recommends that you take this drill as an evaluation for you and your family of how prepared you are if an earthquake actually occurred. Ask yourself:

1. The first thing you do to protect yourself and others when an earthquake happens.
2. Who do you report to of your status?
3. How much supplies do you have where you are either at home, in the car, at work or school to survive for the next 3 days to 2 weeks?
4. Are you or others trained for first aid or first response in case of injury and have the supplies needed?

Register with the state of Utah for this drill: <http://shakeout.org/utah/> and for more information in extensive areas in which you can be better prepared.

## Burn Permits Available On-line

The open burn policy was changed in 2013 to meet the revised standards of the State Department of Air Quality (DAQ). Burn Permits will not be available at City Hall or at the Lone Peak Fire Department. Instead permits will be available free on-line.

Recent modifications to these rules change the open burn periods and includes a statewide requirement to obtain a permit from the local fire authority. The permit application process begins at the DAQ's website. Follow the link:

<http://www.airquality.utah.gov/Compliance/OpenBurning/index.htm>

Burn permits may be issued on-line between March 30 and May 30 and between September 15 and October 30. Be sure to plan ahead - the entire permitting process could take 3-5 days to complete. **Please include your email address when submitting a permit so you can receive your permit promptly.**

If completing the open burn permit application online is not an option, a hard copy of the open burn permit application, contact the DAQ by phone at (801) 536-4000. Please note: it may take up to 14 days from the date of request to receive an open burn permit if a hard copy is submitted for processing. You may also use the public computers at City Hall and the Library to request a permit.

## Lone Peak Fire Department - Escape Safety Tips

Plan Ahead! If a fire breaks out in your home, you may have only a few minutes to get out safely once the smoke alarm sounds. Everyone needs to know what to do and where to go if there is a fire.

- Make a home escape plan. Draw a map of your home showing all doors and windows. Discuss the plan with everyone in your home.
  - Know a least two ways out of every room, if possible. - Make sure all doors and windows leading outside open easily.
  - Have an outside meeting place (like a tree, light pole or mailbox) a safe distance from the home where everyone should meet.
  - Practice your home fire drill at night and during the day with everyone in your home twice a year.
  - Practice using different ways out.
  - Teach children how to escape on their own in case you can't help them.
  - Close doors behind you as you leave.
- IF THE ALARM SOUNDS...
- If the smoke alarm sounds and you see or smell smoke,

GET OUT AND STAY OUT. Never go back inside for people or pets.

- If you have to escape through smoke, GET LOW AND GO under the smoke to your way out.

CALL the fire department at (801) 763-5365 or 911 if an emergency, from outside your home.

## Pressurized Irrigation
