VOLUME 22, ISSUE 1

JANUARY 2016

## Winter Snow Removal & Plowing

During the winter months it is important for Highland residents and the City to work together during snow removal weather. During heavy snow storms it can take as much as 48 hours to clear all priority routes and through streets once the storm has subsided. Parking on the street and objects in the road (trailers, basketball standards, etc.) makes it difficult for plows to clear the streets. It is unlawful to park any motor vehicles upon city streets from December 1st to March 31st between the hours of 12:00 a.m. to 8:00 a.m. and any time snow is present so as to provide access to snow plows for snow removal. The Police Department may issue a parking citation.

Many people use four wheelers to plow their drive ways and sidewalks; the Police Department reminds you that four wheelers are not allowed on the street unless they are street legal.

Residents may view a copy of Highland City's snowplow frequently asked questions on the Public Works page at [www.highlandcity.org](http://www.highlandcity.org). If you have any concerns you may call Public Works at 801-772-4515. To report parking violations, please call the Police Department at 801-756-9800.

## Christmas Tree Pick-Up

Republic Services will provide curbside Christmas Tree pick-up January 4-12. Please have all undecorated trees (non-flocked trees) at the curb by 7:00 a.m. on January 4th. If your tree was missed, please contact Republic Services at 801-785-5935.

## Park Pavilion Reservations

Park Pavilion Reservations can be made on-line starting 8:00 a.m. on January 4. You may view the reservation calendar and submit a reservation request on-line on the Facility Reservation page at [www.highlandcity.org](http://www.highlandcity.org). All reservations are made on-line but if you need assistance filling out the online registration form, please call 801-772-4523 or visit us at City Hall.

## Tips to Help Prevent Frozen Pipes

During periods of extremely cold temperatures, temporarily keep a trickle of water running from the faucet. Never thaw frozen pipes with an open flame. You could start a fire or cause damage to pipes or the water meter. In the event if you have a frozen water meter or need assistance, please call Public Works at 801-772-4515 or 801-420-2553 for after-hours emergencies.

## Tips to Save Money on Your Utility Bill

Did you know that your winter water usage affects your monthly sewer charges? Your yearly sewer charge is based on those winter water readings.

On your monthly statement from Highland City, you can see your previous water reading, your current water reading, and the usage. The usage is in 1,000 gallon increments. Winter water usage should be within a low range. The average usage per household can range from 6,000 to 10,000 gallons per month.

Please watch your monthly statement. If you see unexplained increased water usages, please check your household appliances for leaks (i.e. toilets, hot water heaters, etc.). If you are unable to locate a leak you may call Public Works at 801-772-4523 for assistance. This simple tip can help all of us and save you money.

## A Glimpse into Highlands Past

The Highland Historical Society features articles each month to highlight individuals in Highland who have made an impact to the community. This month's article, is about Merlin B Larson, submitted by Brenda Thurgood.

At the corner of 9600 N and 6000 West sits the Merlin Larson Park. It's the one with the Gazebo and the rose garden. You may have wondered who Merlin Larson was and why we have a park named after him. I want to tell you because I was privileged to know Merlin Larson and you should know what a fine man he was and how much he contributed to the development of Highland.

Merlin was born in 1923 at his parent's home in Highland. His parents were Ludvig Maurice Larson and Vera Marie Featherstone Larson. His father served the Highland community in several capacities. During the 1930 Depression, Ludvig supervised the Federal Emergency Relief Association, a program to help those in need, and distributed food to families in Highland. The Utah County Commission asked him to supervise the P.W.A. (Public Works Administration). The project in Highland was to haul gravel and put it on the muddy roads.

Merlin learned how to work hard growing up in Highland. The majority of the families were farmers and each child had responsibilities. He also learned from his father the importance of serving others in the community.... (story continued online at [www.highlandcity.org](http://www.highlandcity.org))
